SUMMARY

Web Developer and SEO Specialist experienced in building responsive, search-optimized websites and managing SEO campaigns for clients across healthcare, education, hospitality, and maritime real estate. Ranked multiple target keywords into top search positions through technical, on-page, and off-page optimization. Currently building a full-stack SEO Management Dashboard in Python and Django to streamline campaign tracking, content approvals, and reporting. Backed by a Bachelor of Computer Applications (BCA) from the University of Madras and a PG in Artificial Intelligence from Edure Trivandrum, now expanding into AI full-stack development and Generative AI to create intelligent, production-ready web applications.

EXPERIENCE

Web Developer & SEO Specialist (Team Lead) Jan 2026 – Present

Prception Medialab · *Thiruvananthapuram,Kerala*

- Developed responsive, mobile-friendly websites for clients across healthcare, education, hospitality, and maritime real estate
- Contributed to website planning, UI/UX design, and front-end development for an international maritime real estate and hospitality company
- Led the SEO team for Seren Derma (healthcare) and Blackbox Learning (education), ranking multiple target keywords into top search positions through technical, on-page, and off-page SEO
- Managed keyword research, link building, and content workflows from drafting through client approval, and reported performance using Google Search Console and Google Analytics

EDUCATION

Edure, Thiruvananthapuram 2024 – 2025

PG in Artificial Intelligence

University of Madras Institute of Distance Education 2023 – 2026

Bachelor of Computer Applications

SKILLS

Technical: Python, Django, JavaScript, HTML, CSS, PostgreSQL, Generative AI, Machine Learning, Technical SEO, On-Page & Off-Page SEO, Bootstrap

Tools & Technologies: Git, Github, Google Search Console, Google Analytics, Claude, Microsoft Excel, NumPy, Pandas, Matplotlib, Seaborn

Soft Skills: Team Coordination, Performance Reporting, Content Workflow Management

PROJECTS

AQ Air Live · Repo

Stack: HTML, CSS, JavaScript, Responsive Design, Lenis

A responsive, animation-rich landing page for Air AQ, an AI-powered indoor air-quality monitor that tracks CO□, PM2.5, VOCs, gas, and temperature and turns the readings into clear alerts.

- Built a scroll-driven product storytelling experience in vanilla JavaScript using IntersectionObserver and requestAnimationFrame, with no front-end framework
- Implemented smooth scrolling with Lenis, a custom preloader, reveal-on-scroll animations, a draggable carousel, and an animated live air-quality panel
- Designed a fully responsive layout across desktop, tablet, and mobile with dedicated breakpoints and reduced-motion handling

Healthcare & Education SEO Campaigns

Stack: Keyword Research, On-Page SEO, Off-Page SEO, Google Search Console, Google Analytics

End-to-end SEO campaigns for Seren Derma (healthcare) and Blackbox Learning (education), focused on growing organic search visibility for high-intent local and industry keywords.

- Planned keyword strategies around healthcare treatments and education courses, prioritizing location-based and high-intent search queries
- Ran a structured content pipeline from drafting through client review and approval to publication, alongside link-building activities
- Achieved top search positions for multiple target keywords across both brands, tracked through Google Search Console and Google Analytics
